

# Green Zones Goals & Strategies

- Goal 1:** Advance equity and prevent displacement and gentrification
- Goal 2:** Increase job opportunities for residents through Green Zones activities
- Goal 3:** Improve air and environmental quality in business operations
- Goal 4:** Improve quality, affordability, and availability of housing
- Goal 5:** Clean up soil contamination and redevelop brownfields
- Goal 6:** Improve air quality, livability, and pollinator habitat through vegetation, clean energy, and energy efficiency
- Goal 7:** Create food security by supporting a local food system of growing, production, and distribution
