MESSAGE FROM THE EXECUTIVE DIRECTOR

“Of all the preposterous assumptions of humanity over humanity, nothing exceeds most of the criticisms made on the habits of the poor by the well-housed, well- warmed, and well-fed.”

— Herman Melville
Poor Man’s Pudding, Rich Man’s Crumbs

2014 was a year of change, challenge and accomplishment at CAPSH. Long-time Executive Director and mentor to me, Richard Zierdt, made the decision to retire after 14 years of steady leadership. We expanded existing services, created efficiencies and increased our presence throughout Hennepin County. And we implemented new outcome and accountability standards.

Community Action means something different in every community. The movement remains anchored to the principle of addressing local needs through local control. The foundation of that principle is the tripartite Board structure of each Community Action Agency, which brings together representatives of the low-income community, local business leaders and local elected officials to address the root causes of poverty, and ameliorate its effects. The Board of CAPSH sets the strategic vision and conducts vigorous oversight of the organization to ensure good stewardship of public funds and private donations.

As the saying goes, you can’t truly understand a person until you’ve walked a mile in their shoes. There are no easy solutions to the paradox of poverty in the midst of plenty. However, we must begin with the assumption that the opportunity to escape poverty is not contingent on what led one into poverty. If the Great Recession has taught us anything, it is that too many in our community are one misstep, mishap or unlucky break away from economic calamity.

We help clients identify and overcome barriers to self-sufficiency through program delivery and an extensive partnership network dedicated to their success. CAPSH is improving the quality of life in Hennepin County, by improving the lives of families and individuals.

I am thankful for the opportunity to lead this organization and look forward to working with the agency’s Board, staff and partners to develop innovative and impactful solutions to the problem of poverty in our communities. Please join us. <http://www.capsh.org/take-action/>

Sincerely,

Scott Zemke, Executive Director

A handwritten signature in blue ink, appearing to read "Scott Zemke". The signature is stylized and written over a faint, light-colored rectangular background.

MESSAGE FROM THE BOARD CHAIR

At Community Action Partnership of Suburban Hennepin, our mission is to improve the quality of life in Hennepin County by creating and supporting links between individuals and communities through service, education, and collaboration. While offering services to meet our client's basic and immediate needs, CAPSH helps our clients build a solid foundation for themselves, their families, and their future.

In 2014, after more than 14 years with CAPSH, Richard Zierdt, former Executive Director, announced his retirement. Rich was a great leader who dedicated his time to helping low income families achieve self-sufficiency. Rich's leadership and vision of building strong community partnership has greatly impacted those we serve with more collaborative resources and solutions for our community's needs.

CAPSH continues to strive for excellence under our new Executive Director, Scott Zemke, committed and passionate staff, dedicated community partners, and our Federal, State, and local government partners who are working together to assist and support local families and communities.

The Board of Directors and staff of CAPSH are proud to serve the communities and people of Hennepin County. As we begin our 30th year of operation, we look forward to another fulfilling year of strengthening ties and forging new bonds with our residents, partners, and the communities we serve.

HISTORY AND MISSION

Our Mission is ***“to improve the quality of life in suburban Hennepin County by creating and supporting links between individuals and communities through services, education and collaboration.”*** Community Action Partnership of Suburban Hennepin (CAPSH) has been pursuing this mission since the agency was established in 1985.

CAPSH is a private, non-profit 501(c)(3) agency. We are governed by an 18-member Board of Directors, and, as required by federal law, the Board of Directors of this Community Action Agency is comprised of a tripartite governance structure. One-third of its membership is drawn from the elected officials from within suburban Hennepin County, one-third is drawn from the public sector representing the business and public life of suburban Hennepin County and one-third represents the low-income communities and neighborhoods of suburban Hennepin County.

In 2014, CAPSH assisted 19,956 low-income households (63,860 individuals). CAPSH responds to the needs of low to moderate income individuals and families by providing a variety of both direct and indirect services.

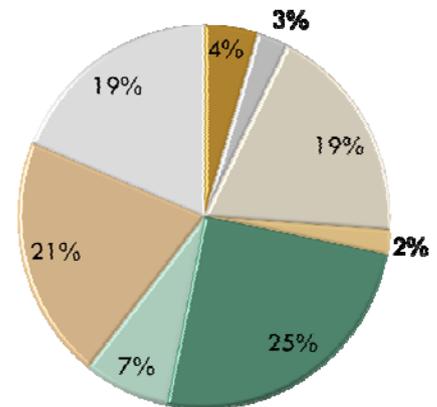

CAPSH partners with organizations, corporations, individuals and communities to address community needs with increasing aggressiveness. We exist to eradicate the effects of poverty in Hennepin County and we need your help. Please join us or invite us to join you in creating effective efforts to address the basic needs of our communities.

Characteristics of clients served in 2014:

- 80% are poor or near-poor, with household incomes of less than 150% of poverty line
- 20% are single parent households
- 25% are seniors
- 58% are members of a minority group
- 65% are renters
- 33% of participants over the age of 24 did not complete high school

- Mortgage Default
- Homelessness
- Illness/ Medical Expenses
- Addiction
- Job Loss/ Unemployment
- Legal Issues
- Food Insecurity
- Money Management Issues

People were assisted in applying
for health insurance

17,675

Households received assistance
paying their home energy bills

222

Received
rental assistance

ENERGY ASSISTANCE PROGRAM

The Energy Assistance Program (EAP) is a federally-funded program that helps families avoid the difficult choice between buying food and medicine or paying their heating bills. The program assists low-income households to maintain affordable, continuous and safe home energy.

The 2014 EAP season proved to be especially challenging. The state of Minnesota suffered a sudden and severe liquid propane (LP) shortage. Prices hit all-time highs, peaking at over \$6.00 a gallon. The State of Minnesota and the Minnesota Department of Commerce were quick to respond to the crisis and increased EAP eligibility income guidelines. The action extended eligibility for heating assistance from 50 percent of the state median income to 60 percent and helped an additional estimated 10,000 Minnesota households affected by the propane emergency. The action has increased the available crisis funds for liquid propane and fuel oil from \$500 to \$1000 to ensure affected households would be able to keep heat in their homes.

In 2014, CAPSH served a total of 13,938 households with Energy Assistance funds, and 3,737 households with crisis funds. Eighty-six of those households use LP or fuel oil for heating. "The increase in income guidelines was a life saver for many suburban Hennepin residents," stated Jennifer, Assistant EAP Coordinator. "We were able to help about 20% more LP and fuel oil households that otherwise would have gone without heat."

The program also assisted 26 households with furnace emergencies and other energy related repairs.

Partner Highlight

Project Linus provides security to children through blankets. "Blanketeers" gather to quilt, tie, knit, crochet, or sew blankets in a wide variety of sizes. The blankets are given to children and families who are in need.

Over the past year, Project Linus, Greater Twin Cities Area Chapter, has donated over 500 blankets to CAPSH's clients! These donations are greatly needed and appreciated by CAPSH and our clients.

Thank you Project Linus and Blanketeers!

To address the basic need for food in our communities, CAPSH helps individuals and families apply for the county-administered Supplemental Nutrition Assistance Program (SNAP), providing them with money to purchase food for themselves and their family. In 2014, CAPSH screened 566 households for SNAP eligibility and provided 195 households with application assistance.

CAPSH continues to expand its SNAP outreach efforts. In addition to creating new partnerships, CAPSH's SNAP case managers hold regular off-site hours at various locations across Hennepin County to allow for easier access to services. In fact, CAPSH's SNAP case managers spend about 75% of their time at outreach locations in direct contact with current and potential clients with an emphasis on reaching out to seniors.

In 2014, CAPSH began a partnership with Appetite for Change, a North Minneapolis non-profit organization, to offer nutrition classes to low income families at locations throughout Hennepin County. These classes increase our one-on-one engagement with clients by incorporating an interactive activity while introducing SNAP application assistance and other available resources.

CAPSH offers Financial Security Workshops, a free educational series that provides individuals and families with the tools they need to become more financially secure. The workshops provide participants with the tools they need to create a budget, reduce debt and build assets, build a good credit rating, and protect themselves from fraud. CAPSH currently holds 4 to 5 workshops a year, but is working on doubling the program to meet client needs.

While the workshops were originally designed for young adults, immigrants, and those unfamiliar with our monetary/credit system, CAPSH is seeing more people over the age of 40 taking the classes. Many of these participants have experienced a major life event such as job loss, foreclosure, bankruptcy, or divorce. They are looking to get a fresh start and want to know how to better handle their money and credit moving forward.

In 2014, CAPSH began offering Financial Security workshops for Seniors. The workshops focus on ways to prevent financial exploitation and identity theft, plan ahead for unexpected life events, and access available benefits and resources.

CAPSH's HUD approved, Full-Cycle Homeownership programs are helping to stabilize households while presenting opportunities to potential homeowners.

HOMEBUYER EDUCATION

In 2014, 202 households benefited from CAPSH's *Homebuyer Workshops*. The workshops help prospective buyers understand the road to homeownership by introducing them to information on multiple aspects of homeownership, including but not limited to, the evaluation of the household's financial situation, understanding required documents, and the legal rights and responsibilities of owning a home. CAPSH offers these workshops along with one-on-one counseling to all prospective homebuyers, including first-time homebuyers, previous homeowners looking to re-enter homeownership, homeowners looking to refinance or apply for a rehab loan, and homeowners looking to move up or downsize from their current living situation.

While about 40% of homebuyers are required to attend a homebuyer workshop by their lender, CAPSH is seeing an increase in the number of people taking the class voluntarily at the early stages of the homebuying process. The age range of the client runs the full gamut; from recent college grads, to 30-somethings just starting a family, to those in their 40s and 50s who are "starting over" after a major life crisis. Following the housing crash in 2008, many people want to know more about the homebuying process and types of available assistance before they invest their time and money into buying a house. CAPSH has noticed that more clients are taking the proactive steps necessary to be successful homeowners prior to buying rather than jumping into a purchase. Clients are saving more money, improving their credit scores, and paying down debt to qualify for better or larger loans. Between their research and CAPSH's workshops and counseling, clients are becoming more informed buyers.

"We learned so much at CAPSH's *Homebuyer Workshop*! We got wonderful information which really helped us in our home-buying endeavor. After receiving guidance from CAPSH, we began the process of purchasing our first home and are counting down the days to our closing. Thank you again for all you do!"

- CAPSH Clients

REVERSE MORTGAGE

CAPSH provided housing counseling services to 49 senior households who were interested in obtaining a Home Equity Conversion Mortgage (HECM). An HECM, often referred to as a 'reverse mortgage', is a loan that allows homeowners that are age 62 or older to convert the equity in their home into available cash. An HECM does not require any repayment as long as the homeowner continues to reside in his/her home.

FORECLOSURE PREVENTION

A report published by the Minnesota Homeownership Center shows that in 2014 there were 8,309 foreclosures in Minnesota, a 30% decline from the number of foreclosures in 2013 and less than half the number of homes lost to foreclosure in 2012. Hennepin County also experienced a similar trend with a significant decline of 33%, to 1,751 foreclosed homes in 2014.

In 2014, CAPSH saw an increase in clients coming back in need of assistance after previously getting a modification. This can be attributed to a number of factors including a new life crisis, lack of proper budgeting, and/or interest rate resets. CAPSH foreclosure counselors find that workout options are quite difficult to obtain for those experiencing long-term unemployment. Generally, all long-term workout programs require income coming from employment, pensions or social service benefits. Occasionally a short term forbearance is approved, but it is not offered on a regular basis.

In 2014, CAPSH's *Foreclosure Prevention Program* provided intake, counseling, and loan assistance to 323 distressed homeowners.

“Thank you for your dedication, excellent suggestions, and rewarding advice on the behalf of saving our home from foreclosure. The services you provided were outstanding, if it hadn't been for your consistency, determination, and effort, we would have lost the right to continue to live in our home. We really and truly appreciate everything that you have done for us, we will not hesitate to refer someone to you. In fact, it will be our honor to do so.”

- CAPSH Client

HOME REHAB, MAINTENANCE & REPAIR

CAPSH's *Rehab, Maintenance & Repair Program* is meeting an important need by maintaining the integrity of existing low-income housing. The continued lack of any significant wage gain for many Americans makes home maintenance difficult for many Suburban Hennepin homeowners. 2014 revealed that deferred maintenance is still a common problem. Homeowners are holding off on sewer, plumbing, painting, heating, ventilating and air conditioning repairs due to economic uncertainty; as a result, clients are coming to CAPSH in an emergency or crisis mode.

CAPSH's *Rehab, Maintenance & Repair Program* assisted 66 households in the prioritization and implementation of housing repairs.

HOMELESS TRANSITIONAL SERVICES

The current economic situation continues to call for bold and substantial initiatives to help ease the economic hardships low-income households are facing. CAPSH works with low income individuals to provide basic needs assistance including secure housing, food, and transportation. CAPSH provides direct emergency assistance along with free budget and tenant training classes. Case managers work with the client to help secure safe and affordable housing. In program year 2014, 109 individuals received intensive case management and financial assistance in finding housing.

SUCCESS STORY

For families living from paycheck to paycheck, one bad break can lead to a situation of crisis. This was the case for December who has been working with CAPSH and other service providers to avoid becoming homeless. Her hours at work were cut and December was no longer able to afford car insurance. Unfortunately this led to her license being suspended in March 2014. December's job required her to have reliable transportation and after learning that her license had been suspended, December was let go from her job. With zero income coming in, December became homeless in July, sleeping and living in her van with her two children. She stayed at a high school parking lot until she was told she had to leave. December then found herself having to move from parking lot to parking lot. In an effort to help, a member of her church allowed her to park her van in her driveway to avoid it being towed along with all of December's belongings. CAPSH's case manager continued to work with December, trying to place her in a shelter in Minneapolis, but that came to a halt once they found out that December's abusive ex was living in the same shelter. December had no other option but to continue to sleep in her van. Finally, by the end of summer, more job leads and housing opportunities were becoming available. CAPSH provided December with bus passes, along with the guidance, support, and contacts she needed to obtain employment and secure housing. In September of 2014, December's life was looking up. She found a caretaker position and a safe and affordable apartment with \$0 money down. December has made many positive strides for her and her family. Her story is one of cooperation and determination. CAPSH's services along with other community resources allowed her to achieve and maintain a stable family life.

In collaboration with Volunteer Lawyers Network, CAPSH holds Legal Service Clinics at locations throughout suburban Hennepin County to allow residents more localized access to free legal services. The clinics offer low income clients the opportunity to speak with a volunteer attorney about legal questions and obtain information about potential court appearances.

The clinics provide an invaluable service, equipping clients with the knowledge they need to resolve their legal issues. As part of the Legal Services, CAPSH provides application assistance to individuals eligible for Deferred Action for Childhood Arrivals (DACA). DACA enables these individuals to receive deferred action for two years, subject to renewal, and to apply for authorization to work.

The success of the Legal Clinics can be attributed to the dedication and support from our volunteers who provided legal advice. to 244 clients and assisted 65 with deferred action applications.

SUCCESS STORY

Edwin first came to one of CAPSH's Legal Clinics two years ago to apply for Deferred Action for Childhood Arrivals (DACA). At that time he was still in high school, unsure of what his future would hold. He wanted to continue his post-secondary education, but was not sure if he would be able to afford it. In March 2015 he returned to CAPSH to renew his DACA. The renewal process was much easier than the first time. Volunteers assisted him with filing out the application and making sure he met the requirements that the Department of Homeland Security had established for renewing applicants. Edwin was thankful and excited as he shared with CAPSH volunteers how his life has changed in the last two years. With DACA he was able to open a bank account, find a stable job, and continue his post-secondary education. Edwin was able to obtain a four year scholarship to attend the University of Minnesota and is also working to earn income to meet his basic needs. He is excited and hopeful for what the future has in store for him.

CAPSH's Tax Preparation Assistance Program impacts the lives of low-to moderate-income residents and communities of suburban Hennepin County. The program provides free tax preparation and filing, as well as other resources that allow taxpayers to satisfy a tax liability or realize benefits they may be eligible to receive.

For Tax Year 2014, with the help of 28 volunteers who donated their talents for a total of 1,005 hours, CAPSH served 646 households (impacting 922 individuals), returning a total of \$1,125,335 in federal, state, and property refunds to community members.
