

Home Stretch Workshops

Your first steps to homeownership

Buying your first home can seem overwhelming. Take the first step by educating yourself at a HomeStretch workshop. Learn how the process works, who is involved, and what resources may be available to you. Professional presenters from the community- lenders, realtors, housing counselors and financial counselors- share their expertise and knowledge of the current market and answer your questions.

The Home Stretch Workshops will help you understand:

The Mortgage Process:

- How to qualify
- Is debt a factor?
- How to improve your credit
- Mortgage application process

The Purchase Process

- What realtors do
- Documents involved
- Assistance available

The Closing Process

- Costs to close

The Inspection Process

- The systems of a new home
- What to look for in a home
- How to pre-screen properties
- The warning signs of maintenance needs
- The costs involved in major repairs

Pre-Registration is Required!
